

# BLS

# OIL & GAS FACILITY AUTOMATION

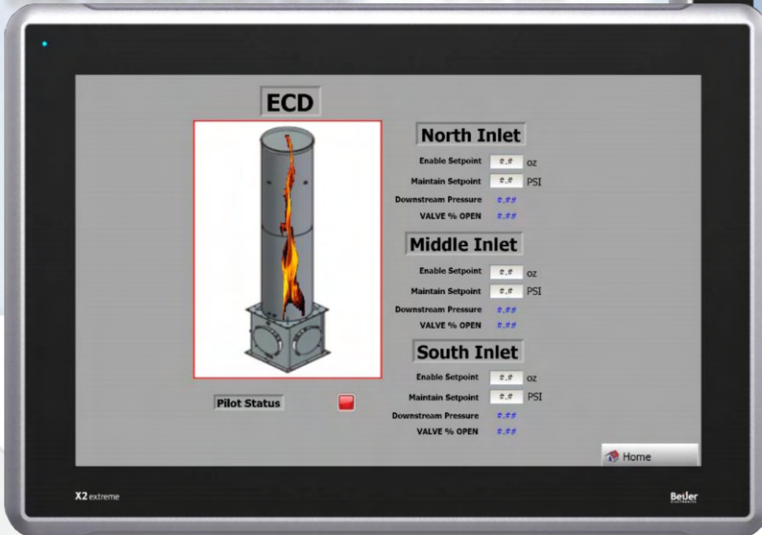

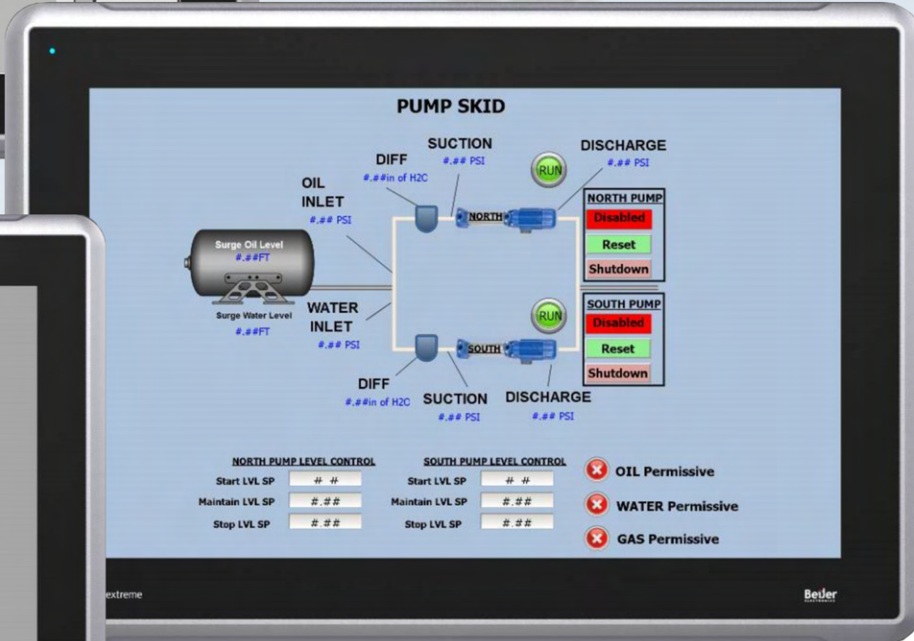

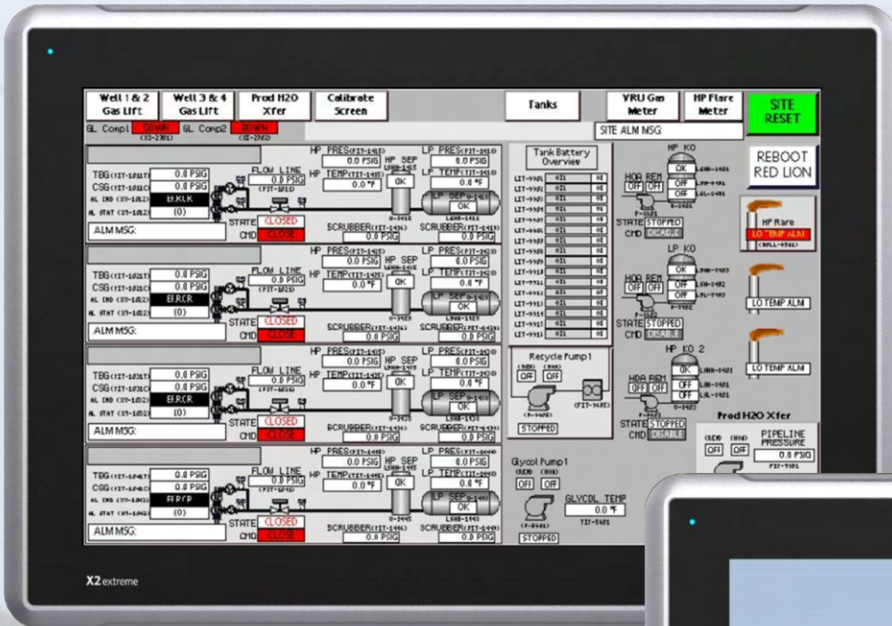

Black Label Services provides all-inclusive automation for Oil & Gas companies. We can provide new construction install, upgrades and everything in between. As a service company we are **brand agnostic** and a trusted partner to provide you with the correct solution to maximize profits. Our company is built on return customers due to our relentless attention to **quality** and **customer service**.

## WATER TREATMENT FACILITY AUTOMATION/BUILD

Black Label Services also provides all-inclusive automation for Water Treatment Facilities. We can provide new construction install, upgrades, maintenance and everything in between. When it comes to automation solutions for water treatment applications, there are plenty of options. From a standalone station supervising a single pump to a more complicated system of multiple stations with a two-way communication.

# PROGRAMMING

**Qualified-** BLS has the largest team of qualified programmers in the business that allows us to handle any project.

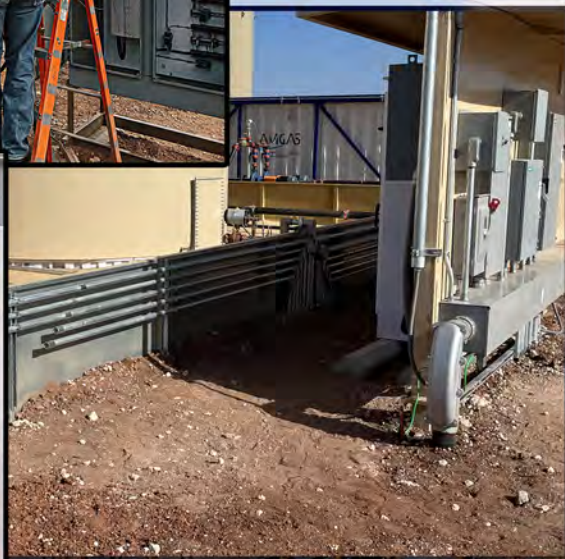

**Efficient-** We assign a team to each customer so that we can build a personal, team atmosphere. Once you are a customer, you become part of the BLS family.

**Never Quit-** 24/7/365 support is available to every customer. We are there when you need us the most.

**Calibration:** Meter calibration is critical to profitability. We offer calibration services for all equipment we install and stock all replacement parts. BLS supports assets from conception and every step along the way to ensure your equipment is operating at its highest efficiency.

**Gas Chromatography:** Our experienced techs can test your entire site on the first trip, minimizing facility costs & time. A sample of the gas is extracted from the probe in the line, processed for particle removal and phase integrity, then quantified by peak integration and concentration is calculated.

## Interior Commercial Electrical

- Banks, Retail Stores, Office Buildings, Strip Centers
- Hospitals & Multi-Family Housing
- Prefab to design build projects
- New Construction/Tenant Finishes/ Remodel & Retrofit
- Lighting/Device Repairs & Installations
  - Signs Hookups
  - Computer Circuits
- LED Lighting Improvements
- Code Corrections
- Service Upgrades
- 24/7 Emergency Repairs
- Troubleshooting & Testing

## Industrial Services

- Electrical Problems & Troubleshooting
- Consultation
- Power Distribution
- 508-A Custom Panel Fabrication
- Gas Sampling & Measurement
- Engineering Services
- Electrical Panel Installation and Upgrades
- Cryptocurrency Mining
- Grounding Assurance/Survey
- Medium & High Voltage
- Full Scale Electrical Construction (Turnkey Solutions)

## Exterior Commercial Electrical

- Panel Service Installations
- Parking Lot/Site Lighting
- Garage/Warehouse Lighting & Power
- Remodels & Renovations
- Ballast/Bulb Installation & Replacements
- LED Lighting Design & Retrofits
- Dedicated Sign Circuits
- Security Lighting
- Lighting Maintenance
- Generator Installations
- Code Corrections
- Troubleshooting & Testing

- New Construction of OHP
- New Construction of Underground/  
Pad Mount Transformers
- Installation of Capacitor Banks
- Installation of Voltage Regulators
- Preventative Maintenance/24 Hour Service Calls

# INTEGRITY TESTING/ CLEANING SERVICE

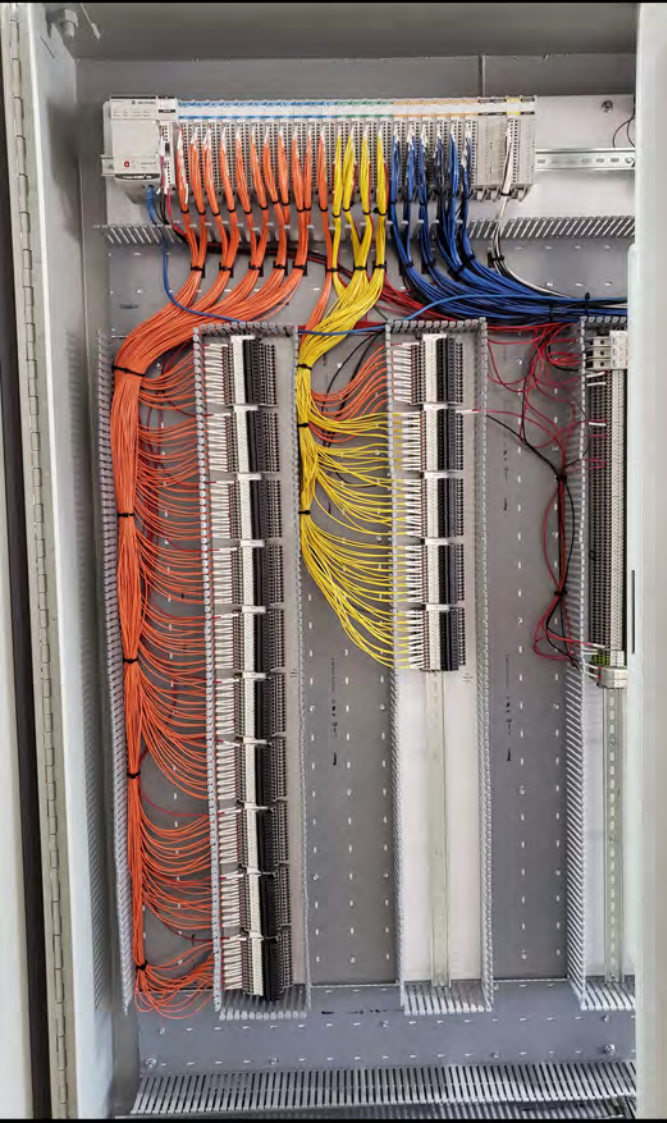

- Crystal Gauge
- Detailed Customer Report
- PRV Testing
- Tag & ID PRV
- Steam Outs
- Coil Pulls
- Tank & Skid Washing
- Anode Replacement

Black Label Services provides Integrity Testing on production facilities to verify that equipment meets customer standards. BLS can perform integrity pre-start up, on a maintenance schedule or upon request. Our qualified technicians will test the integrity and reliability at high pressure, monitor leaks and make sure you meet state and federal requirements.

After testing we will provide customers with a detailed report. We also offer all inclusive cleaning services to keep your facility clean and environmentally sound.

# 508-A PANEL SHOP

- UL Listed Panel Shop
- Engineering Drawings available
- Class 1 Div 1 rated
- Freewave
- Xetawave
- Signal fire
- Phoenix Contact
- IDEC
- Allen Bradley- PLCs
- Siemens
- ABB- Total Flow
- Emerson-ROC
- SCADAPack

Convr Innovations formally known as Westgen Technologies, solved the problem with a patent-pending design that combines solar panels and advanced battery technology with a proprietary on/off reciprocating engine system that can use site gas, natural gas, or propane for cost effective, reliable power.

## EPOD CA Series

A complete solution to eliminate methane emissions from pneumatic devices on your well site with existing power

## EPOD PR Series

Reliable, remote power solutions up to 40kW with optional solar & UPS battery array to provide uninterrupted power 24/7, 365 days a year.

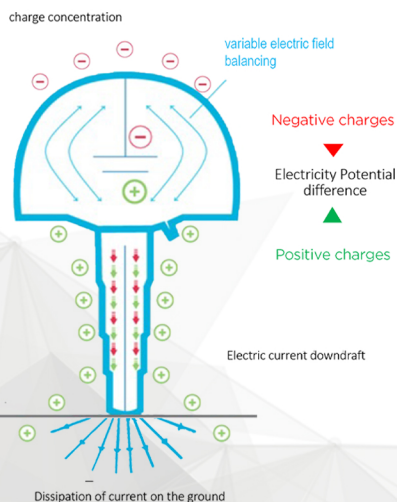

## EPOD AP Series

A complete solution to eliminate methane emissions from pneumatic devices on your remote (off-grid) well-site

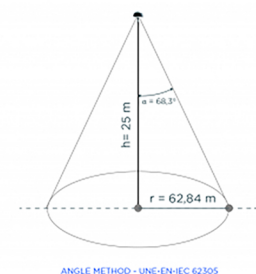

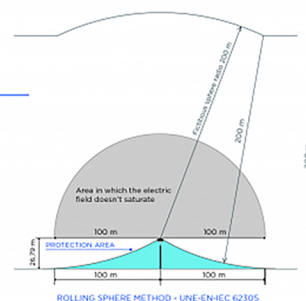

## HOW DOES IT WORK

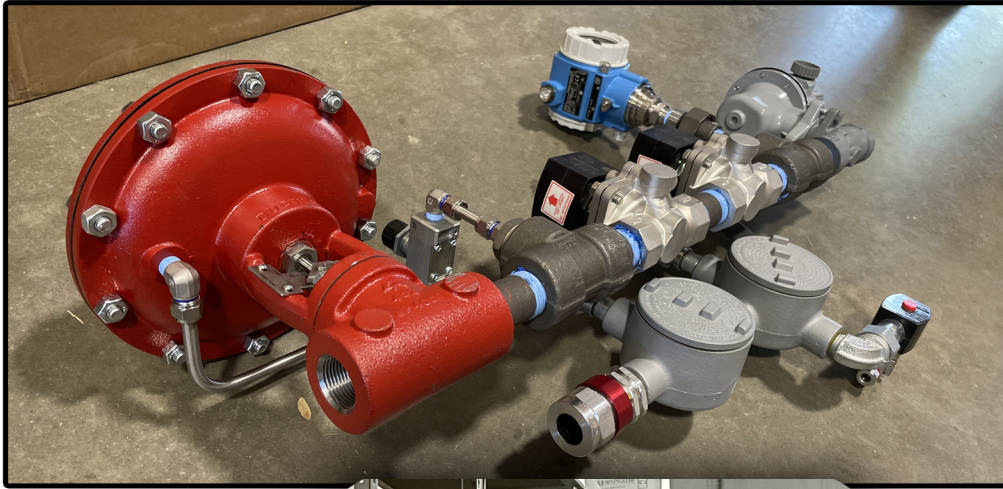

**Variable electric field balancing device.**  
The working principle is based on constant compensation of the existing electric field of its surroundings, avoiding the upward leader to be generated between the device and the atmosphere.

Dinnteco AVOIDS THE RISK OF DIRECT strike from lightning  
Dinnteco MINIMIZES the effects of electromagnetic pulses (EMP)  
Dinnteco GUARANTEES THE CONTINUITY of the activity  
Dinnteco GUARANTEES THE SECURITY OF PEOPLE AND INSTALLATIONS

## Rolling Sphere Method

The coverage radius of the DDVE has been determined through the application of the ROLLING SPHERE METHOD and the ANGLE METHOD, according to the short pulse current tests 10/350 of 100 kA according to the requirements of the standard UNE-EN IEC 62305-1 carried out in the Official Central Laboratory of Electrotechnics (L.C.O.E) of the Ministry of Industry, Tourism and Commerce of Spain in Madrid (LCOE Test No. 2019023F0067)

-Over 28,000 sq. ft. of total warehouse space

-24/7 On-call service team available for emergency part sales

-Locations in Colorado, West Texas, Wyoming, South Texas & Louisiana

-Walk-ins welcome Monday-Friday for same-day service

-We stock many long lead time items in case the unexpected happens

-We carry tools, safety equipment, and electric test meters

-Field Delivery Available
