CHEMICAL INJECTION SYSTEM

Our units are custom designed specifically for each production customers needs.

VALUE PROPOSITION

- The ability to run multiple chemicals and multiple pumps off of one controller
- Temperature Control for methanol injection
- Flow Control based on PPM of chemical to production volume
- On time/Off time Control
- Capability of making a simple 4 point Injection System that can be increased to 48 Injection points with one control panel
- Modbus/SCADA capable
- Lower field labor and onsite costs
- Single point for repair and maintenance
- Accurate dosage rates

FEATURES

TANKS

- Barrier Enhanced horizontal HDPE
- 135, 220, 330, 550 Gallon
- UN/DOT UN31a ibc tanks
- 110, 250, 350, 550 gallon
- Round Stainless Steel Farm Tanks
- 300, 550 gallon

CONTAINMENT

- Roto Molded HDPE basin
- Custom Steel Basin

PUMP OPTIONS

- Graco
- Wellmark

FLOW METERS

- AW Lake
